FLOOR BROOMS

No. 6 Line Floor Brushes

Light green flagged-tip plastic.

Staple set in clear lacquered half-round hardwood block.

Recommended Use: Dry sweeping finest dust or grit on smooth floors. The extra long trim and flagged tips make this floor brush comparable to the old, high quality Russian hog brushes.

DO NOT USE WITH OIL BASE SWEEPING COMPOUND.

Length of Trim: 4 inches PRICE INCLUDES NO. M-60 HANDLE.
Packed in individual cartons.

Yellow Foam Roller Covers

Yellow Foam Roller Covers with PVC core. Large cover (9FM075) made with slits to ensure even coverage on rough or uneven surfaces.

Foam covers won't splatter, mat or leave fuzz in finish and are seamless for even coverage. For use with all paints (NOT lacquer or shellac). They're great for getting a lot of paint onto porous surfaces (such as wood paneling or cabinets), and for creating super-smooth finishes with glossier paints. Foam does not absorb paint, resulting in easy clean up with water if you are using latex paint or with the correct solvent if you are using paints other than latex.

Length: 9 "

PVA Imitation Chamois

Made of tough **PVA material** this product dries any surface without streaking or spotting and is safe for use on most surfaces. This material is resistant to most chemicals and absorbs water much faster than a regular towel or chamois and is resistant to odor, rot and mildew. Great to use in place of a regular leather chamois when drying automobiles.

Care: Store moist in airtight bag or container. Machine wash if needed.

Size: 17" x 27"

Packed one dozen per carton.

Doz. Wt. Each Price Doz. Price

QD-900 **PVA Chamois**

5 1/4 lbs.

Microfiber Cloths

Made from very fine strands of **microfiber**, these cloths will safely remove dust, dirt and grime without **chemicals or detergents**. Use damp to clean surfaces or dry for ordinary dusting. Cleans and polishes glass, chrome and brass. Dirt and dust are trapped in the microfiber and removed from the surface. Non abrasive and great for use in detailing automobiles. Use wherever you would normally use a paper towel or cloth.

Care: Machine wash separately to avoid picking up lint from other items.

Packed 10 per package.

Double Prong Hook

Designed to mount on peg boards.
Stores long-handled tools, brooms, etc. to keep them off the floor and out of the way when not in use.
Made of steel with protective coating to prevent rusting.

Overall length: 17" Wall mount plate: 4½"
Packed 6 per carton.

No.	Double Prong Hook	Ctn. Wt.	Each Price	Doz. Price
		8 lb.	_____	_____

RK1 Assembled Broom Rack

Black painted tubular metal rack holds 24 fully assembled brooms.

Base: 24" x 24"
Overall Height: 73 ½"

Wt. Each _____ Each Price _____
RK1 **Assembled Broom Rack** 27 lbs. _____

Display Wire Rack Assortment

Display Rack with labeled display box includes the following wire brushes.

- 12 Each #4-S Shoe Handle – Steel
- 12 Each #1-S Long Handle – Steel
- 12 Each #4-SC Shoe Handle – Steel w/Scraper
- 6 Each #1-SC Long Handle – Steel w/Scraper
- 6 Each #8-SC Straight Handle – Steel w/Scraper

Display Wt. _____ Each Price _____
No. 20021 **Wire Display** 27 lbs. _____

HORSEHAIR

Produced in the United States, South America, Canada, Australia, and China from the tails and manes. The tails produce the stiffer grades in both black and grey. The mane hair is soft and produced in both black and grey, also. Horsehair is used in a variety of brushes such as, floor sweeps, shoe shine brushes, tin handle acid brushes, counter dusters, window brushes, etc.

NYLON

A synthetic man-made filament that offers excellent resiliency and durability. This fiber has high water absorbency and is impervious to solvents, alkalis and certain acids and is immune to most common chemicals. Nylon can withstand use near high temperatures and has high resistance to abrasion.

PALMYRA

Palmyra is a natural cinnamon-color fiber obtained from the leaf stalk of a palm tree native to India. Palmyra is obtainable in the prime stiff and medium stiff grades. This fiber is used in garage floor brushes, gong or fender washing brushes, deck brushes, scrub brushes, etc.

PALMYRA STALK

This is a very coarse fill having the appearance of split bamboo. The stiff long-lasting material is used almost exclusively in street and contractor brooms.

POLYPROPYLENE

Available in a variety of diameters and colors. Polypropylene is highly resistant to petroleum solvents, acids, caustics and detergents. Polypropylene is used in brushes such as acid brushes, garage floor brushes, and black-top coater brushes. POLYPROPYLENE IS NOT AFFECTED BY ACIDS.

POLYSTYRENE

Also available in a variety of diameters and colors. Polystyrene is highly resistant to acids and detergents, but has a lower resistance to petroleum solvents. Polystyrene has excellent flexibility and wear ability, which makes it Magnolia Brush Manufacturers' choice for a filament in floor sweeping brushes, car washing brushes, scrub brushes and many others.

TAMPICO FIBER

A vegetable fiber obtained from the Argava Lechuguilla cactus which grows wild on mountain slopes in Mexico. The natural color of the fiber is cream color. Tampico fiber is obtainable in natural color and dyed colors as well as mixtures of different colors. Tampico is used in floor sweeping brushes, automobile washing brushes, acid brushes, counter dusters and many other brushes.

UNION FIBER

A mixture usually of Tampico and Palmyra and often including Bassine. This fiber is cream and medium brown in color and is used in many different styles of brushes for wet or dry scrubbing.

WIRE

A variety of wires are used in our brushes. We use only very high psi carbon and stainless steel wire in our scratch brushes and tempered brass in our aircraft brushes, white sidewall brushes and special-use brushes.
